- **"10 Must-Watch Online Learning Providers in India – 2021"** Award by Higher Education Digest in January 2022
- Many more...

OUR RECRUITING PARTNERS:

#letslearntoearn

I am Faizal Ahamed, and currently working as Operations Executive at Wipro. It has indeed been a privilege to have been a part of EduBridge. The learning experience was profound, and I have acquired the requisite skillset for my industry. I would like to extend my gratitude to the trainers for imparting judicious insights on industry proceedings. My master trainer has been very supportive, and quick in resolving any doubts. This comes as a huge plus when learning in an online setup!

**Placed at:**

EduBridge

I am Rohith Kuner and I recently got an offer letter from Capgemini with help of EduBridge. I was imparted great technical as well as soft skills during my training at EduBridge and also helped improve my interview skills. Thanks to the entire EduBridge team and their management and placement team for helping me get the offer from Capgemini! I can't wait to see where my career will not take me! I highly recommend EduBridge to those who are ambitious and dedicated enough to pursue their dreams!

**Placed at:**

I am Pavithra and currently working as a software engineer at Accenture! I never knew it would be possible to even break the stereotype of being a female in the male oriented IT world, let alone dream of being part of the software team at a company like Accenture! I was glad to see that there were many more female learners like me in my batch, all trained and placed by EduBridge at the end of the training at various corporates! I only have EduBridge's entire Team to thank for our achievements!

**Placed at:**

I got to know about EduBridge through a friend and I am so grateful now to him for letting me know about this opportunity.

Since our batch of 19 learners began, our trainer gave equal importance to all the learners as necessary. He taught us concepts in front-end and basic Java. I thank him for his valuable training and time. He always made sure that everyone understood the fundamentals and also helped us with assignments to solve as practise. I had an amazing learning experience! He is still a great mentor to me. We literally learnt everything with the help of real-time examples and live projects.

I am also grateful to my placement managers as they also supported all of us during the interview and placement process and helped with all our queries. During my interview at Capgemini, I was also prepared specifically for it that played a major role in my selection! I was assisted even through the on-boarding and other documentation processes as well which made me more comfortable and ease into the job better.

I have no one else to thank but EduBridge for providing me with valuable training and helping me carve a career path based on my interests!

**Course : Post Graduate Certification in Java Full Stack Development for Engineers**  
**Placed at : Capgemini**  
**Designation : Analyst**

I can vouch for EduBridge today because they ensure that the learners are provided with excellent services at every step of the way. Their website provides each learner with their own unique credentials to login and keeps close track of undertaken courses and scores measures your progress and activities that helps you be motivated at every stage of the training. They also provide study material which I found were easy to understand and use. The frequent assessments after completing each module helped me to study on time and improve myself with clear feedback provided right through the Dashboard. Apart from my course, EduBridge provided me with many other opportunities like access to industry through guest lectures! These sessions do tend to change your perspective a lot towards a job and the industry as a whole.

I would like to thank the EduBridge Placement team as well, as they were very supportive and helpful. I would like to thank my placement managers as I received clear and timely responses from them which helped me secure a job! They kept me updated regarding each interview opportunity and kept track of my status and provided feedback before my next interview. It was because of this unwavering confidence that the Team had in me that I got placed in Capgemini as a Software Tester finally at the end of 4 rounds of interviews there!

Overall I had a fantastic experience with EduBridge and I look forward to doing more courses with them in the near future. I have been recommending EduBridge to everyone I know! I thank EduBridge for helping me start a new phase in my life and I am grateful for the same.

I joined EduBridge as a way to upskill and improve my technical knowledge based on the kind of job I was doing at this small IT firm in my area. I found myself interested in and curious about the Python course offered at EduBridge because the curriculum was really detailed. Little did I know that this course would not only help me find an excellent job months later, but also improve my knowledge manifolds that would help me in the future! The technical knowledge I gained through this course continued to assist me in my daily tasks in a professional capacity and still continues to help me in my current job.

All the master trainers ensured that we received holistic training as they paid equal attention to theoretical ad practical skills as well as helped improve on our communication and other soft skills. For instance, I worked on 2 live projects that helped me understand how to apply all the knowledge that I had acquired. The regular assessments took away the fear of aptitude and technical tests during my placement and interview rounds altogether and I performed much better.

The whole training experience helped me become more confident as a person and groomed me slowly into a professional that I could only dream of becoming! Today, I am proud to say that I work at Accenture. I only have EduBridge to thank for in making this a possibility for me!

**Course : Post Graduate Certification in Python and Ruby on Rails**  
**Placed at : Accenture**  
**Designation : Associate Software Engineer**

I am Pooja from a small place called Mandya district, in the state of Karnataka. I have a background in Computer Science and my journey at EduBridge began after completing my graduation from Government College. Although EduBridge is located in Mumbai, they organize online lessons for learners like me who are based outstation and require guidance. Thankfully, most of the training was conducted via Master Trainers and only assignments and self-practise or project work were self-study. Not a single recorded video session like so many other players out there! I was so happy to get this kind of support!

When I enrolled at EduBridge, I had basic domain knowledge that I had acquired during graduation. Even so, these concepts were not clear in my mind and I through the course I quickly realized how much the industry had advanced and there was so much more to learn. The trainers at EduBridge trained me in coding, HTML, CSS and JavaScript as well. Their motivation played a key role in my progress. They kept telling me and believed in me as a good programmer and never let me give up in frustration when I got stuck or even when I made errors.

After the learning process, I completed a project on my own and that helped boost my confidence even further. A cherry on the cake - EduBridge helped me secure placement at Accenture! Who could have imagined? I certainly have EduBridge to thank for this!

## NABANIT BORO

---

I enrolled for the Microfinance course at EduBridge which was referred to me by one of my friend's. Our Trainer taught us several aspects of finance and tried to provide us with real time updates and news from the financial sector all throughout the training. The sessions proved to be very informative and our trainer was very supportive. He also tried to enlighten us with appropriate work culture for which I will be forever grateful! Who knew grooming and professional etiquettes could take you places? I got placed at IndusInd Bank as a Relationship Executive in their Tezpur (Assam) branch and I can all credit this to EduBridge for proving me with such amazing opportunity. I am absolutely euphoric about the service received by EduBridge as it has turned my career in a new and better direction. I can hardly wait to enrol myself for the next advanced level course and upskilling myself!

**Course : Certification in Microfinance Executive**  
**Placed at : IndusInd Bank**

## DEVARA VIJAY KUMAR

---

I would like to thank EduBridge's Placement Team for helping me get a job in my dream Company – Capgemini! Thank you for being so helpful and kind with your time and energy. I would like to thank my trainers for their very valuable training. I really enjoyed it and appreciate that they made it so much fun. I feel prepared to even deal with uncomfortable issues now. Once again, I would like to thank the entire EduBridge team. You guys are doing a superb service to the youth of the nation! We need more service providers like you to ensure that youth like me can get the proper guidance, counselling and support needed to not only dream but to dream big and learn how to fulfil these dreams and convert them into a reality! Without them, I wouldn't have been able to achieve my goals, so I am really grateful to EduBridge and all its team members! Keep up the good work!

## GAYATHRI MR

---

I cannot thank the EduBridge team enough for improving my technical skills as well as my interview and communication skills in such a short amount of time. I still cannot believe how they all managed to bring about such drastic transformation in all of us. I thank them for always providing me with knowledge and support that has helped shape my career path to what it is today! I had been course hunting for a long time online and seen everything that is out there. But something about EduBridge struck a chord – especially that they don't have pre-recorded videos and provide support even after placements to ensure you are settled in your job and happy! I am sure that no other platform provides such support at every stage of the training and even after that. EduBridge provides great learning and career based services and opportunities and have a great team. They are the best I have ever seen!

**Course : Post Graduate Certification in Java Full Stack Development**  
**Placed at : Capgemini**  
**Designation : Analyst**

## ABHISHEK GHOSH

---

I joined EduBridge right after my graduation. From the first day, the trainer was very kind and cooperative, and the way she taught us was very interactive and inclusive. After completing almost 70% of my training, I received regular calls from my Placement Manager, who helped groom me for job opportunities and interviews and finally, to land a job offer. With EduBridge's help, I was placed at IndusInd Bank! Thanks a lot EduBridge for all the help and guidance! I definitely recommend them to everyone looking for a job or just willing to upskill or even as a fresher, they are great with identifying your skills and setting you on the right career path that match your interests and skills!

**Course : Certified Rural Banking Officer**  
**Placed at : IndusInd Bank**  
**Designation : Relationship Executive**

## ASMITA RANPISE

---

My search for a good course was fuelled by my desire to secure a position at a reputable organisation. However, this was not an easy task, even with the required qualifications. My search led me to EduBridge, where I had the option to choose the course that suited my needs and interests. The trainers who took our session were very efficient and helpful and taught us all the concepts really well. For me, getting a good placement at the end of the course was crucial. Let me be honest - EduBridge did not fail me there! The team was very strong and without their guidance and expertise, I would not have been able to secure the job I have today! I look forward to everyday now to get up and go work at a company at a position that is helping me shape my career! Kudos to Team EduBridge and thank you for everything!

**Course : Certification Program in Data Analytics**  
**Placed at : Accenture**  
**Designation : Associate Software Engineer**

---

## SANDHIYA S

---

Why would I recommend EduBridge to anyone? I am a proud example of their success! Not only have I become a Full Stack Java Developer, but EduBridge helped me get into the company of my dreams - Accenture! I always received support from my trainers; be it with anything. They pushed me to be my best. The relentless efforts of my trainers make me a multi-skilled professional that I am today! This attribute helps boost my confidence even further, which helps me forge ahead as an established professional in the tech space. I am grateful to EduBridge who helped me acquire a job in an enterprise that one can only dream of working in!
